- A COMPLETE CATALOGUE OF ALL SHOWS IN MY LIBRARY & OFFERED FOR TRADE -

JACK FREEMAN  
503 - 3rd N.E.  
SWIFT CURRENT  
SASK., CANADA.

All shows listed in this catalogue are available in trade on an hour for hour basis - with one exception: if you are just starting out on your collection, or feel you don't have enough material to offer in trade, I will be delighted to assist you in enlarging your collection. To do this, I will accept tape in exchange for shows - an economical way to build a library. For 3 hours of shows of your choice ( 2 full tracks) send two 1800' reels of good quality tape. I will copy your requested shows onto one of the reels and return it. The other reel I will retain for my time, trouble, & machine depreciation. If you wish 2 hours of material, follow the same procedure except that you send two 1200' reels. I use only Mylar tape - please don't send Acetate base either in trade or in tape-for-shows offer.

NOTE: SOUND QUALITY is a controversial subject so I won't dwell on it other than to say that all sound ratings used in this listing are intended only as a guide and may not necessarily agree with someone else's opinion. I rate them as I hear them on receipt and I will readily admit that I was perhaps overly optimistic in my earlier collecting. However, these shows are being re-rated on a continuing basis. I can say that any show rated V.Good to Excellent can be listened to with ease - defects are minor.

When requesting shows from this catalogue, please give reference number (i.e. - R130B). This saves me considerable time in locating your request.

In making trades, I am flexible. Whether you want 4 track or 2 track; 1800' or 1200' - you name it, I'll do it.

Compiling this catalogue has taken many hours and lots of work. It would therefore be appreciated if you would acknowledge its receipt. It's a big job arranging all these shows and including brief descriptions which help the recipient in choosing programs.

Some of the shows in this listing were taped directly from transcriptions. These can be identified by the symbol \*\*.

NOTE: During the time involved in putting this catalogue together, I have received many more shows. These will be listed in supplements as soon as I have heard them. For S.F. fans (of which I am one) I have recently obtained two shows of particular interest: THEATRE 10.30(C.B.C. production) is a 5 part story (2½ hours) titled "Apollo 17" which is about a routine Moon exploration except that the module crashes on takeoff from the Moon. The astronauts inside are rescued by aliens from another galaxy. The 2nd show is from STUDIO 71(also C.B.C.) and is a 60 minute presentation of Ray Bradbury's "Fahrenheit 451", a story of the future wherein the job of firemen is to burn and destroy all books along with the homes of the people possessing the books. Reference numbers of these shows are R133 for the first and R71A for the second. Both are VG/Exe in sound. Also, for Capt. Hornblower fans, I have a brand new one in 5 episodes(2½hrs) titled "Hornblower in the Pacific"(R166) in VG/Exe sound( slight Xtalk in Ch. 3)-2 this is a THEATRE 10.30 production.

Apologies here for the messy typing of stencils so don't bother commenting on my lack of typing talent. Hope you enjoy browsing through this listing - all previous lists should be destroyed. I don't know how I will put all these pages together - I may have to leave it to the recipient to do what he wants; use clips, rings, a binder, or even paper the bathroom wall. It all depends on how interesting he finds this catalogue - let's hear from you---

This concludes my catalogue of radio shows and supercedes all former listings you may have - feel free to destroy all these former lists. Supplements will be compiled as time permits - I now have about 150 shows not listed herein(in fact, I haven't even heard them.) I would also like to make two apologies: (1) For the sloppy typing of stencils(this is obvious). and (2) To all those persons who haven't heard from me for some considerable time - this catalogue took more time to prepare than I figured. I am now prepared to go 'active' again.

N.B. - I am still desperately searching for episodes from the old rural comedy serial EB AND ZEB broadcast in the 1930s - it superceded the LUM AND ABNER show and I still feel that the latter program was patterned somewhat after the E. & Z. show.

Following are some of the shows to be listed in more detail in the upcoming supplement: THEATRE 10.30("Hornblower in the Pacific"(5 chaps.-2½ hrs.)-R166. STUDIO 71(CBC - "The Killers"-R132A) BEYOND MIDNIGHT("Cataclysm"-R167A; "Green Vase"-R167B) CBC STAGE("Fahrenheit 451"(Bradbury)-60m-R71A-VG sound. LUX THEATRE("My Man Godfrey"; "It Happened Tomorrow"; "Day the Earth Stood Still") FATHER KNOWS BEST-/48 NOBIOUS TWIST-90m MARTIAN CHRONICLES("Usher 11")-30m. BBC UNKNOWN WORLD("Subway Named Mobius"-30m)

Although I rarely save material from television or movies, I have noted an increasing number of collectors seem to be taking an interest in collecting this type of programming. I do save any material that is of special interest or is a show where the video is not necessary to follow the story-line. Some of this material is listed below - in addition to the shows listed in this section, I have various bits of mainly comedy material (of varying lengths) with such artists as Don Adams, George Gobel, Charlie Manna, Jack Carter, Dinah Shore(w/Ella Fitzgerald), Dean Martin(w/Nanette Fabray & Fabian), Kirby Stone Four, Ames Brothers(w/Ed Sullivan), Red Buttons, Charlie Weaver. These were all taped around 1959-60. If requested, I will use this type of material as fillers.

I don't bother with movie soundtracks as I find it very frustrating trying to follow the action and know what is going on, especially during long periods of silence or music.

Here then are shows of special interest from TV-----

**III BEVERLEY HILLBILLIES** (Programs 1 - 12, 1962-all 25m-Exc sound.

Supp #2  
in preparation

It's a bit overdue but here is my first supplementary listing to my catalogue. I sincerely hope that the reader will find it of interest and perhaps spot a few shows not in general circulation. I would enjoy hearing from anyone who finds the material listed herein of interest.

The sound ratings I have used are intended only as a guide and may not necessarily agree with someone else's opinion. Also, wherever possible, I have this time included the network on which a particular show was heard.

TRADING - These shows are listed primarily for trading purposes but I do make exceptions as explained below. I prefer 1200' reels either 2 track or 4 track. However, I will accept 1800' reels particularly if the shows I request are a consecutive run of one series or episodes from a serial. In trading it will be an hour for hour basis and the tape you use should be of reasonable quality (Shamrock, Capitol, etc.) I can't afford top of the line tapes so I don't expect you to do so either. If 1800' tapes are used I would request that Concert not be used as I have had quite a bit of trouble in that size with severe dropouts. The 1200' size seems to be okay so far though. However, I have it on good authority that Radio Shack is planning to improve the 1800' Concert, in fact, I understand they may be making their own tape before too long.

TAPE-FOR-SHOWS - Don't feel discouraged if you have no shows to trade or if your collection is small. I will be pleased to send you the shows of your choice under the following system: if you wish 2 hours of programming, send me two reels of 1200' tape. On the one I will dub your requests on two tracks (2 hrs.) and return it to you. The other reel I retain for my time and equipment depreciation. If you wish 4 hours, send 4 reels - I will dub two hours (2 tracks) on each of two of the reels. The other two reels I retain for reasons given above. If you wish 4 hours on all 4 tracks of 1 tape, then send only 3 reels - 1 extra reel for each 2 hours. In other words, it is one extra reel for each 2 hours. If you wish 3 hrs. or 6 hrs. the procedure is the same except that you would send 1800' reels (1 extra reel for each 3 hrs.) (If you wish 3 or 6 hours on 1800' reels please don't use Concert, at least for the present - try to get Shamrock, Capitol, low-priced Ampex, Saxitone, Tempo, Jana, Realistic, etc.) If Radio Shack does indeed upgrade their 1800' reels then we can again start using them.

I hope that all who receive this supplement will reciprocate by sending me their listings. Also, I would prefer trading one reel at a time since multi-trades mean that others have to be kept waiting during the time involved in putting together 2, 3 or 4 tapes for one person. I will also make exceptions here in certain cases.

I've got lots of stuff already lined up for a 2nd supplement so hang tight -- and hang by your nose if your thumbs are missing --

Jack Freeman.

(The following McGee shows are from their earlier years and are listed in order of broadcast commencing in 1939. All are VG/Exc except ~~(X1441)~~ where noted - the 4 Notes were dropped after the /39 summer replacement (see: A. Templeton) - regular visitors on show were Old Timer, Mrs Uppington, Boomer, Nick Depopulus, Hal Peary, Grandma and Teeny (done by Molly.) This is the series that introduced Throckmorton P. Gildersleeve (Peary) and during the course of these earlier shows we not how his character is developed - in the first few shows he appears in a variety of roles and when he appears as Gildersleeve, his first name is Homer. This series originated four years earlier in Chicago and then moved to Hollywood (where we pick up the series.) One of my favorite characters is Boomer due to his great W.C. Fields type of voice. Molly does not appear in the first 10 shows due to illness and the program was titled 'F. McGee and Company'. All shows have Johnson lax ads and are 30m as well as VG/Exc (there are occasional skipped grooves in the earlier shows.)

- (1441) "Jan 31/39" ("Army Manoeuvres") - R187A - 1st show from Hollywood. (w/o Molly). Army exercises come to Wistful Vista and McGee offers his services as military adviser. Donald Novis sings 'Only a Rose' (wavery); B.Mills plays 'Patty Cake'.

\*\*\*\*\*

I hope you find something of interest in this supplementary listing - lots more to come in my 2nd supplement. Once again I have bungled. In my catalogue I promised a more detailed description of several shows that had just come in at that time. One of these was 'HORNBLOWER IN THE PACIFIC' - R166: 2½ hrs in VG/Exc sound - a CBC production. A review will definitely be included in the next supp.

Also missed this time were two BEYOND MIDNIGHT shows('Green Vase' and 'Cataclysm'. Both are R167 and '-Vase is VG/Exc; 'Cataclysm' is G/VG.

Let's hear from you -----

HANG BY YOUR NOSE -

LAST MINUTE ADDITION - I have just recently recorded a CBC radio special running a full 2 hours on the life and music of the late Fats Waller. This show will be listed in more detail in my next supplement but I can say that the show contains all of Fats' standard hits plus many more lesser known tunes (including an early piano-roll, his 1st vocal, etc.) For those who are interested, pertinent details follow:

"Feast of Fats"- RR225AB-2 hrs.-VG/Exc (vol fluct. in few spots.)

Again I am long overdue in putting together a supplementary listing. My apologies, and I hope to put these things out a little more frequently than has been the case up to now. I do sincerely hope that you find this supplement of interest as a lot of work has gone into its compilation.

RATINGS: As usual, I would like to remind the reader that all sound ratings used were arrived at during my first preview of a show - they are intended only as a guide and do not necessarily agree with another person's ideas. If there seems to be a vast difference between my rated value and what you are hearing, please let me know so I can doublecheck the show in question - tapes do deteriorate once in a while and unknown problems can crop up unnoticed in the equipment used.

TRADING: As is the custom, I prefer to trade hour-for-hour rather than by the increasingly popular method of reel-for-reel. Trading complete reels means eventual duplication of shows, sometimes half a reel or more, just to obtain one or two prime 'wants'. I have no complaints where the custom reel is all of one series, or episodes of a serial, or if most of the shows are of interest to me. At the moment, I prefer 1200' reels since I do seem to have a perpetual backlog of listening. Exceptions are made, of course.

NO SHOWS TO TRADE? Don't give up just because you have no shows to trade or if your collection is small. If you have nothing of interest to me I would still delight in helping you get going on this great hobby. I have assisted quite a few friends in the past so why stop now? Commercial outlets charge as much as 5 to 10 bucks per hour for programming and this is undoubtedly pretty steep for a good many interested persons. I will assist you simply by accepting tape in exchange for the programs of your choice. If you wish just 2 hours of shows simply send me 2 1200' reels of tape - I will fill two tracks on the one giving you 2 hours. The other tape I will retain for my time, trouble, and depreciation. If you wish 4 hours of programming (2 tracks) then you would send 4 reels of 1200' tape - I would fill two tracks on each of two reels (or 2 hrs. on each) and return them to you - I would retain the remaining 2 reels. However, if you wish your shows to be dubbed 4 track, then you need only send 3 reels - your 4 hours will be dubbed onto 1 reel 4 track and the other 2 I would retain. It works out to 1 extra reel for each 2 hours of programming. If you wish 6 hours on one reel then you would send 3 reels of 1800' length - I will return one reel with 6 hours (4 track) and retain the other two. In this case, it would be one additional reel for each 3 hours of programming. (for only 3 hrs two track, you would send 2 reels of 1800', one to be returned with 3 hrs of shows, and the other retained by myself.) If you use Shamrock, Capitol, or any other low-priced tape (of good quality) you will get a lot of programming for a nominal sum. If interested, either contact me or send the tapes.

There are quite a few shows in this supp which could be considered as rare. However, I do not make note of this since in 6 mons. everybody could have them. Cheers--

(REMEMBER: Please order by file No-e.g.R255A - left hand numbers are only to let me know total number of shows in my collection.)

NOTE: At this point I feel that I should bring my numbering up to date. In my catalogue I have listed all my ART VAN DAMME shows under one number. Since I have 109 of the 117 transcriptions, I am actually 108 shows short of my actual total. Therefore, at this point I will add 108 to the last total of 1899 - this will give me a better idea of the number of shows in my collection.

Several revisions were noted in the listing of this supplement - However, the majority appear above. I am constantly revising and re-rating the shows in my collection,so if you receive a program from me that falls far short of the rated quality or time listed, please notify me so that I can re-check the show in question.

Jack Freeman.

## STOP STENCIL:

A number of shows have already been previewed for my next supp - among these are several CBC PLAYHOUSE, EXPLORING TOMORROW, LIGHTS OUT, etc. However, one group of shows recently arrived that may be of some interest. These are a run of 46 DR. KILDARE shows in sequence (Feb 1/50 to Dec 9/50). My contact taped these from a complete set of MGM E.T.s and, while I haven't heard them yet, the sound should be near broadcast quality - no ads on any of them.
